ALEX EXAMPLE

M.Sc. Computer Science student, Example University

EXPERIENCE

Software Engineering Intern, Acme Robotics (2024)

- Implemented a thread-safe message queue in C++17 used by three sensor services.

- Wrote Python scripts to automate log analysis, cutting triage time by 30%.

- Added GoogleTest unit tests and a GitLab CI pipeline stage for the module.

PROJECTS

Traffic Dashboard: React and TypeScript dashboard visualising live sensor data.

SKILLS

Languages: C++, Python, Java, TypeScript

Tools: Git, CMake, Docker, GitLab CI
